

DATA PRIVACY POLICY

Keeping your data private and secure is a concern we take very seriously and we are committed to providing ironclad data protection so you can use our applications secure in the knowledge that your information is completely safe.

LabStats runs on Microsoft's Azure Cloud Services, offering world-class security, privacy, and compliance with data storage regulations. We worry about the safety of data so you don't have to.

These are our policies and practices for securing data:

We do not collect, store, or report on any personally identifiable data.

We do not allow outside agencies to access your data for any reason, including data-mining for marketing or advertising purposes.

We operate our online applications via Microsoft's Azure Cloud Services, which are fully compliant with the Family Education Rights and Privacy Act (FERPA), and several other independently verified regulatory requirements.

LabStats meets the 12 PCI compliant requirements. We are a level 3 Merchant and check that we are keeping in PCI compliance monthly. We do not store card holder data, so payments must be made directly by our customers annually by providing the information over the phone. We use Tidal Commerce for merchant services and credit card processing.

To prevent unauthorized access, maintain data accuracy, and ensure the correct use of information, we have put in place appropriate physical, electronic and managerial procedures to safeguard and secure any information we collect.
