**Compare software use for applications that are similar in function, budget category, departmental responsibility or other consideration.**

- 1 Identify if a new resource is replacing a heritage tool that is no longer being used.
- 2 Are you deploying software on computers where it is never used?
- 3 This software is installed on 294 computers. It was used on 114 computers over 6 months! It was never used by more than 14 users at the same time.

## Get a software usage overview of a single application on one page.

- 1 A single location is producing two thirds of the total use of this application!
- 2 350 of the 375 licenses of this software were unused!
- 3 There are 423 computers in this department. The department is paying for 375 Photoshop licenses when only 25 licenses were used. The maximum concurrent use was 2. The department is paying for 375 licenses to serve 2 people at a time.
- 4 This is the only location where Photoshop is being used. Of the 28 computers, all have Photoshop, and it was opened on 19 of them. Only 2 were used concurrently.
- 5 Reconsider providing the same number of licenses every semester. In these 3 locations not a single license of the 32 deployed was used.
